Please note that this list is not comprehensive and that it is based on the number of downloads within the Play Store, App Store, or eBaum's World.

The following are unofficial lists of notable apps. Apps are listed in alphabetical order except when the name begins with an upper case letter. A leading "A" or "P" in an app's name indicates the app was developed by Apple Inc. A leading "I" indicates the app was developed by Intel Corporation.

This is an incomplete list of notable software for the Windows platform that are now discontinued. Note that there may be applications that are currently still available but do not work with the most recent version of Windows (for example, MS Paint works with older versions of Microsoft operating systems, but it does not work on Windows 10). Adobe Premiere Pro was discontinued on December 1, 2018. Okdo Pdf to Jpeg Converter (MS Office Word to JPG image format Converter) was discontinued on January 26th, 2018. Chrome Remote Desktop was discontinued August 12, 2017. Google Chrome Remote Desktop is now part of the Google Remote Apps SDK.

The following are unofficial lists of notable video games that are no longer available. App stores and online distributors may still offer the game for download, but it is rare to see a download site offering it as a full, stand-alone product. Much like the other discontinued applications listed, some games may still be available for purchase or download from other sources; however, they tend to be very rare or hard to find. The following list includes such instances where such games can still be obtained. This is an incomplete list of notable web browser plug-ins that have been discontinued by their developers or publishers. As of 2019, it is extremely rare to find any plug-ins for discontinued web browsers.
